

Macro Lynx Sdn Bhd

Macro Lynx Sdn Bhd ("ML"), a wholly owned subsidiary of Goldis Berhad was incorporated in 1995. Established initially to capitalize on the e-commerce sector, ML shifted its core business to the telco industry as an **Internet Service Provider ("ISP")** in year 2001.

With the purpose of connecting communities across the globe, ML provides online connectivity to individuals, homes and business, transmitting data and voice through its own independent wireless network; Metro-E and FTTP ("Fiber-To-The Premises") infrastructure in addition to an ever-growing telephone and cable network. Apart from ISP, ML also provides the following services.

1. **Data Services** which includes Global Ethernet Services (example: IEPL), Global VPN Services (example: IP-VPN), Multiprotocol Label Switching (MPLS) and Lease line by working closely with strategic partners.
2. **ICT Infrastructure Services** by providing ICT solution and implementation and to date has undertaken and successfully implemented partnership projects with Mid Valley City, GTower, Menara Binjai and Plaza 33.
3. **Network Facilitator and System Integrator** for Mid Valley City, GTower, Menara UOA Bangsar and Menara Binjai.

ML is a registered licence holder of the Individual Network Facilities Provider ("NFP") and Network Services Provider ("NSP") with the Malaysian Communications and Multimedia Commission ("MCMC").

The evolution of ML over the past decade has seen ML climbing the value chain with highly successful partnership on delivery to major clients such as KLIA, Mid Valley City, GTower and Menara Binjai, to name a few.
